Advisors Verification Form
Interdisciplinary paper

As part of their non-course requirements, all Cognitive Science graduate students must complete an interdisciplinary paper by the end of their 8th semester. It is up to the student’s primary and secondary advisors to assess if the paper meets this interdisciplinary requirement (see cogsci.tufts.edu/academics/requirements.htm for details).
This form should be signed by both advisors and returned to Teresa Salvato, Project Administrator for the Cognitive Science Graduate Program, at 115 Miner Hall, Tufts University, Medford, MA 02155. Alternatively it can be scanned in and emailed to Teresa Salvato. A copy of the interdisciplinary paper should also be e-mailed to Teresa Salvato for her records, at Teresa.Salvato@tufts.edu.

I assessed and provided feedback to my advisee, _________________________ for their interdisciplinary Cognitive Science paper

____________________________________________________________________________

I verify that this paper speaks to at least two sub-disciplines/fields within Cognitive Science. In my opinion, it meets the requirement for the interdisciplinary written qualification for the Cognitive Science Graduate program.

Primary advisor’s name (printed): ___________________________ Date: ___________

Primary advisor’s signature: _____________________________________________

Secondary advisor’s name (printed): ___________________________ Date: ___________

Secondary advisor’s signature: _____________________________________________

Student’s signature: __________________________________ Date: ___________
